Harcourt House Artist Run Centre has been a participating venue in The Works Art and Design Festival for the better part of a decade. Each year, in support of the festival, we diverge from our regular gallery programming to present the work of our community of artists and the membership that support our centre.

Join us for this non-juried, salon style exhibition, featuring work from our diverse membership. From student to the professional, this show boasts an eclectic range of art and disciplines. Photography, painting, sculpture, drawing, mixed and new media; this is the show where you will see it all. Since many of the works are also for sale, patrons can show their support by purchasing that perfect piece of original artwork by local artists.

Exhibitions, open studios, and Art Education Studio activities are FREE! BBQ items \$3-\$5 (cash only)
